

SUPER PREMIUM

NUTRA- NUGGETS®

NO WHEAT - NO SOY

SUPER PREMIUM PET FOOD FOR SUPERIOR HEALTH

HEALTHY FOODS, HEALTHY PETS

Nutra-Nuggets® Pet Foods provide premium nutrition for the overall health of your dog or cat. Each formula contains high-quality, highly digestible proteins, premium whole grains and precise levels of vitamins and minerals for ideal nutrition at all stages of life.

High-Quality Energy Source, Long-Lasting Energy

Each Nutra-Nuggets formula combines high-quality chicken or lamb with digestible egg for optimal protein nutrition. Chicken fat, preserved naturally with mixed tocopherols—a form of vitamin E—is a highly digestible source of energy and yields optimum levels of omega-6 (linoleic) fatty acids.

Premium Nutrition, Superior Taste

No artificial flavours. No added colours. Just high-quality ingredients and state-of-the-art manufacturing for an authentic taste your pets will love.

Optimal Levels of Vitamins and Minerals

While it is very important to ensure adequate levels of vitamins and minerals, it is possible to have too much of a good thing. Each Nutra-Nuggets recipe is closely monitored and controlled to ensure it contains the amount of vitamins and minerals appropriate for specific purposes.

Higher Digestibility, Less Waste

Quality, highly digestible proteins and properly ground and cooked whole grains help to ensure digestibility. Each formula also contains dried plain beet pulp, a premium fibre source, to help maintain gastrointestinal system health. This means you can achieve the same nutritional benefits with decreased feeding amounts, and thus decreased stool volume.

Omega-3 and Omega-6 Fatty Acids

All Nutra-Nuggets Pet Foods contain a blend of omega-6 and omega-3 fatty acids. This blend helps support healthy skin and coat as well as overall good health.

Glucosamine and Chondroitin

Specific Nutra-Nuggets formulas contain the natural supplements glucosamine and chondroitin, which help support healthy joints.

Docosahexaenoic Acid (DHA)

Nutra-Nuggets Puppy and Large Breed Puppy Formulas are fortified with salmon oil, a rich source of DHA. This omega-3 fatty acid has been proven to support proper brain and vision development in young animals.

A Formula for Every Pet

As with humans, the nutritional requirements of dogs and cats can vary with age and activity level. That is why every bag of Super Premium Nutra-Nuggets Pet Food is scientifically formulated to provide the levels of vitamins and minerals needed to help your pet maintain optimum health at specific life stages or levels of activity.

Whether you have a new puppy or kitten, an athlete or an aging friend, Nutra-Nuggets has a formula designed to meet your pet's unique nutritional needs.

Choosing the Proper Nutra-Nuggets Formula

This guide will help determine which formula is best for your pet. If you have questions or special needs, please contact your official Nutra-Nuggets retailer.

PUPPY

Complete Pet Food for Dogs

Nutra-Nuggets Puppy Formula is specifically designed to meet the special nutritional needs of growing puppies as well as those of pregnant or nursing adult dogs.

Enhanced with DHA for optimal brain and vision development, our puppy formula also includes an ideal balance of omega-3 and omega-6 fatty acids and chelated minerals for proper condition of the skin and coat, proper development of the immune system and overall good health.

Composition

Chicken meal, ground maize, chicken fat, brewers dried rice, egg derivatives, dried plain beet pulp, linseed, chicken digest, fish meal, salmon oil.

35 - 45	—	—	540 - 665	440 - 545

For pregnant or nursing adult dogs, we recommend free-choice feeding.

LARGE BREED PUPPY

Complete Pet Food for Dogs

Due to an already accelerated growth rate, large breed puppies (those with an expected adult weight of 25 kg or more) can be at risk of over-nutrition from elevated nutrient levels commonly found in puppy formulas. Nutra-Nuggets Large Breed Puppy Formula contains the ideal amount of calcium and fat needed to help promote proper bone development while providing the optimum levels of nutrients all puppies need to grow up healthy and strong.

Composition

Chicken meal, brewers dried rice, barley, oat flakes, maize, chicken fat, maize gluten meal, dried plain beet pulp, chicken digest, fish meal, linseed, glucosamine hydrochloride (0.075%) and chondroitin sulphate (0.025%).

MAINTENANCE FOR DOGS

Complete Pet Food for Dogs

Nutra-Nuggets Maintenance Formula, for adult dogs with normal levels of physical activity and performance dogs during periods of rest, is designed to help meet nutritional demands while helping to maintain a healthy weight. The superior digestibility of high-quality chicken, chicken fat and carbohydrates, together with optimal levels of metabolic energy, means you can provide all the necessary energy your dog requires while feeding smaller quantities.

Composition

Chicken meal, brewers dried rice, barley, maize, rice bran, chicken fat, dried plain beet pulp, chicken digest, egg derivatives, fish meal, linseed, glucosamine hydrochloride (0.03%) and chondroitin sulphate (0.01%).
